

# ‘Walking the Path of Personal Experience’

Waveform Pathfinder Course 2008

Joe McHugh and Mike Webster

Dear Colleagues

## Walking the path of Personal Experience

In this years Graduate workshop at Holycombe, we will be exploring the ways in which Waveform can be applied in expanding ones own personal experience and perception of life. Within ourselves are the answers we seek, and the key to opening the doors to where these answers lie is within your hands – you have only to realise this.

## Stepping into Mastery

Our personal view of ourselves in ‘Mastery’ can sometimes be overshadowed by the ghosts of our ‘parrots’, which still try and convince us that our personal experience and perception of energy is illusory.

Our workshop, ‘Stepping into Mastery’ will provide you with an opportunity to ‘find the Master’ in yourself, with all that he, or she represents for you with those qualities and resources that are available to you at any time.

Joe and I have prepared a delicious cocktail of some wonderful methods which integrate these two main themes, these can be applied personally or in the treatment room situation, we are really excited about their high degree of effectiveness. The rest of the workshop schedule will include improving the effectiveness of hands-on skills, whilst bringing graduates up to date with the very latest developments in our workshops.

The course fee of £320 includes accommodation, food and refreshments at Holycombe, and all course materials. Applications to: **Energy Masters, The Old House, Cameron Farm, Alexandria G83 8QZ**  
Telephone 01389 751502. E-mail [mike@energymasters.co.uk](mailto:mike@energymasters.co.uk)

.....  
I would like to participate in the Pathfinder workshop with Joe McHugh and Mike Webster at **Holycombe on December 6/7** and enclose the sum of £85 deposit (**cheques payable to Energy Masters please**).
