Waveform Energetics

I would like to express my satisfaction with the Waveform courses and would endorse them as a valuable aid to both my Reflexology practice and to my personal development.

As a member of the Association of Reflexologists I attend many courses to enhance my understanding and improve techniques in my treatments. Whilst Waveform is not specific to any therapy, I can confirm that I have incorporated a greater understanding of the energetic process into my reflexology treatments and have achieved a high level of client satisfaction and improved responses since graduating.

On a personal note I find that Waveform has opened doors in my mind. Whilst I have found answers behind some, it has presented many other possibilities. I believe life is a journey of questioning and exploring, learning and growing, giving and receiving. Waveform courses have helped me on this path of personal growth.

Yours faithfully

Pippa Geddes BSc, Wvf, MAR, ART (Reg)
